

## Webmail

With Uniserve Webmail you can check your email from any remote computer in the world, providing they have an internet connection. Your email messages are not saved on any computer so you don't have to worry about losing important information while travelling.

## Email Client

When configuring your email client you can use the following settings

Account Type: POP3

POP3 Server: pop.uniserve.com

POP3 Port: 110

SMTP Server: mail.uniserve.com

SMTP Port: 465

SMTP Authentication: SSL Enabled

If you have a legacy email account you will need to use a different POP3 server, consult the list below for the correct server name. All other settings will remain the same.

## Legacy Email Accounts

Company	Domain Name	POP Server
